BRAND AT A GLANCE

CATEGORY	HOME	MARKET	PRICE BAND
Accessible-luxury watches	Liepāja, Latvia (EU)	United States	$270 – $390

A compass, not a crown.

ALVERA is built on a simple idea: the best luxury doesn't shout. It points. Our mark is a north star — a quiet instrument for people who'd rather find their own way than follow the crowd.

We started in Liepāja, a Baltic port city where old-world craft and clean coastal design sit side by side. That tension — heritage and restraint — is the whole brand. Every ALVERA watch is engineered to be worn for a decade, not a season, and priced so that quality isn't gate-kept behind a four-figure logo tax.

We make timepieces for the American wrist and the American day: dressed up or thrown on with a tee. Precise where it counts, honest about what it is, and confident enough to stay quiet.

MISSION

Make timepieces that feel like a compass on the wrist — precise, personal, and built to outlast trends.

ONE LINE

Find your direction.

NOT THIS

Not flashy. Not disposable. Not luxury-by-price-tag. Not a knockoff of anyone.

Who it's for & how we sit.

POSITIONING STATEMENT

For design-literate Americans who value quiet quality over loud labels, **ALVERA** is the watch brand that delivers considered, European-designed timepieces at a price that respects them — because real luxury is confidence, not cost.

THE AUDIENCE

US, 25–40. Creative-adjacent professionals — designers, founders, architects, people who read the spec sheet. They buy fewer, better things and can spot a markup.

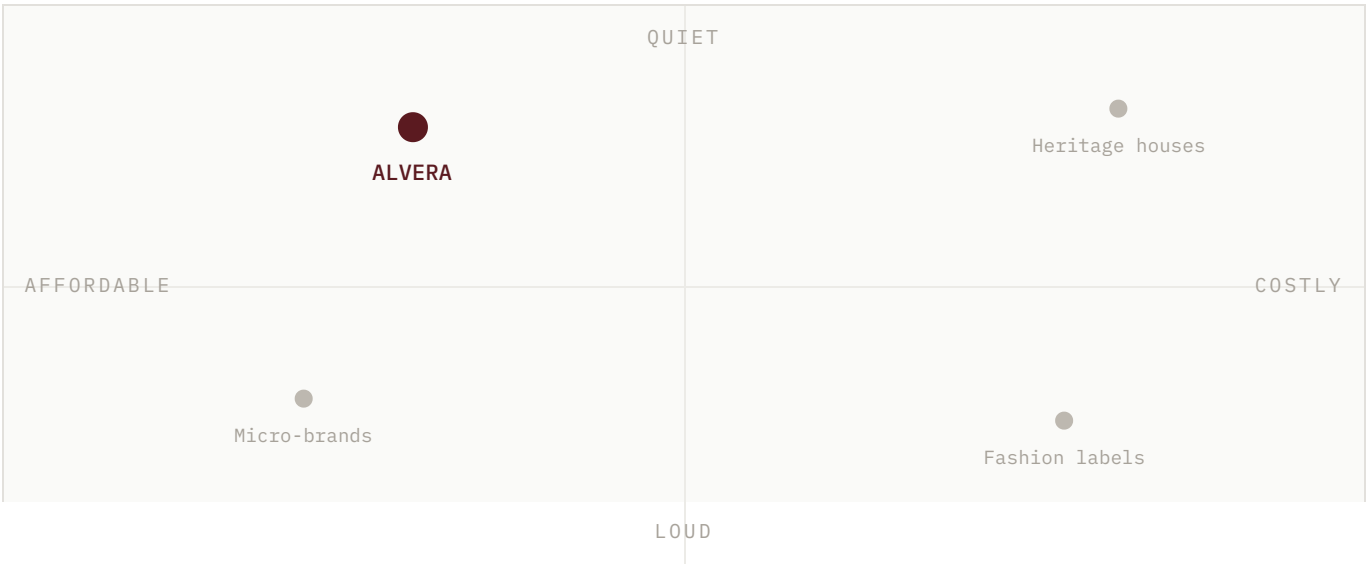

WHAT THEY WANT

A watch that reads as taste, not spend. Clean design, real materials, a story they can repeat in one sentence. No velvet-rope theatre.

WHY US OVER THEM

Micro-brands feel hobbyist; heritage houses cost 5× more. ALVERA is the confident middle — European design language, direct pricing, zero pretense.

POSITIONING MAP

Four things we never trade away.

01 Quiet confidence

We let the object speak. No shouting, no over-explaining. Restraint reads as certainty.

02 Trendy, not trend-chasing

We read the moment and design for it — then make it last past it. Current, never disposable.

03 Relatable luxury

No velvet rope. We speak like a well-dressed friend, not a boutique gatekeeper. Everyone's welcome.

04 Truth

Honest materials, honest prices, honest words. We say what a thing is and what it costs. No inflation.

WE ARE

Precise. Understated. Warm. Direct. Modern. Grounded.

WE ARE NOT

Flashy. Stuffy. Salesy. Ironic. Vague. Try-hard.

The mark, the word, the lockup.

CLEAR SPACE

Keep a margin equal to the width of the symbol's centre circle on all sides of the mark. Nothing — type, image edges, other logos — enters that zone.

MINIMUM SIZE

Symbol: no smaller than 24px / 8mm.
Wordmark: no smaller than 72px / 22mm wide, so the letterforms stay open and legible.

Eight ways to break the mark.

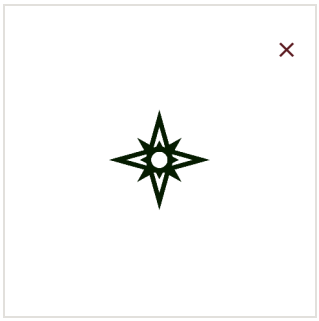

Don't rotate

Don't stretch

No gradients

No off-palette color

Keep contrast

No shadows/effects

Don't re-typeset

Don't crowd

Black, white, one oxblood.

The palette is almost entirely ink and paper. Oxblood is the single signature — used sparingly, it reads as confidence. Never let it exceed roughly 10% of any layout.

Ink

HEX #111111
RGB 17·17·17
CMYK 0·0·0·93

Primary text, logo, most surfaces.

Oxblood

HEX #5B1A20
RGB 91·26·32
CMYK 0·71·65·64

Signature accent. Links, rules, one hero moment.

Paper
#FFFFFF

Fog

Mist
#C9C5BE

Slate

USAGE RATIO

70% Paper 20% Ink 10% Oxblood

CONTRAST

Ink on Paper and reversed on Ink or Oxblood always pass AA. Never place Oxblood text on Ink, or Slate text on Fog — too little contrast.

Helvetica World speaks. Mono annotates.

PRIMARY — THE BRAND VOICE

Aa

Helvetica World

The wordmark and every line of the brand — headlines to body copy. Weights 400/500/600 only. Tight tracking on display sizes, normal on text.

SECONDARY — THE TECHNICAL MARK

Aa

IBM Plex Mono

Labels, specs, prices, reference numbers, captions. Always uppercase with wide tracking for labels. It's the sound of precision.

Display — Helvetica 600 · 38–92px · -2.5% tracking

Heading — Helvetica 600 · 19–26px · -1% tracking

Body copy sets at 15–16px for comfortable reading. — Helvetica 400 · 15–16px · 1.6 leading

LABEL / SPEC — Plex Mono 500 · 10.5–12px · +20% tracking

`Fallback:` where Helvetica World is unavailable, use Helvetica Neue, then Arial. Never substitute a rounded or humanist sans (no Inter, Poppins, Circular).

Say less. Mean more.

PRINCIPLES

> **Plain over clever.** A clear sentence beats a witty one. If a word isn't working, cut it.

> **Confident, never boastful.** State the fact and stop. No superlatives we can't prove.

> **Warm, not casual-sloppy.** Talk like a well-dressed friend — relaxed, but it knows the details.

> **Honest about price & origin.** Designed in Liepāja, priced directly. We never fake heritage or scarcity.

SAY IT / NOT THAT

“A 38mm automatic that works with everything you own. $320.”

~~“The most luxurious timepiece ever engineered, a true masterpiece of horology!”~~

“Designed in Liepāja. Built to be worn every day.”

~~“Swiss-inspired heritage luxury craftsmanship since forever.”~~

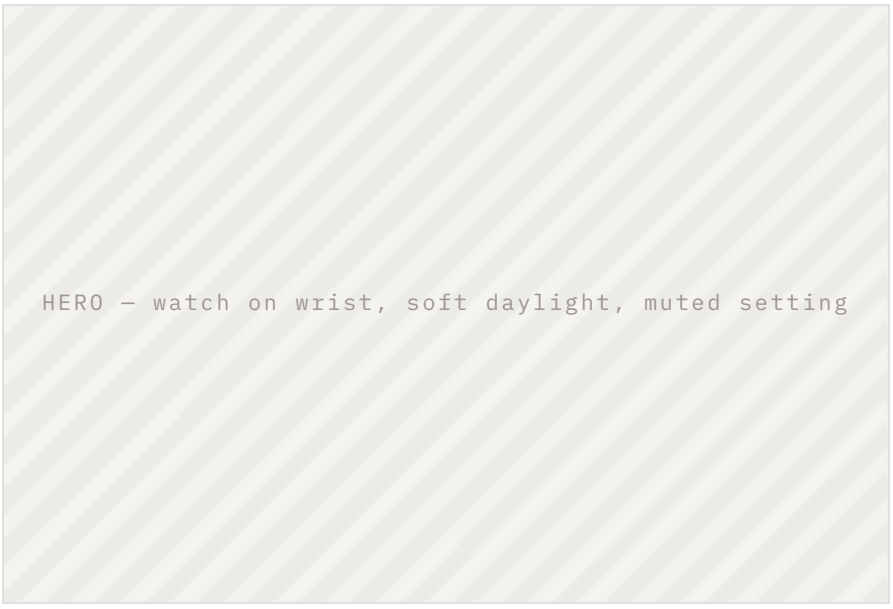

WORDS WE USE

Considered · Direction · Precise · Everyday · Honest · Designed in Liepāja · Built to last · Quiet

WORDS WE AVOID

Iconic · Exclusive · Disruptive · Bespoke · Unmatched · Game-changing · Luxury (as a boast) · Hurry

Natural light. Real wrists.

DO

- Natural, directional daylight
- Muted, neutral surroundings
- Generous negative space
- Skin, texture, real context

DON'T

- Harsh studio flash
- Saturated or neon backdrops
- Cluttered flat-lays
- Heavy filters or HDR

TREATMENT

Color, lightly desaturated. Warm-neutral white balance. No black-and-white except editorial features. Oxblood may appear as a prop, never as an overlay.
